FOR IMMEDIATE RELEASE

UPPER UWCHLAN TOWNSHIP ANNOUNCES FINANCIAL TRANSPARENCY DASHBOARD

CHESTER SPRINGS, PA – The Board of Supervisors of Upper Uwchlan Township is committed to being not only financially prudent, but also financially transparent. In keeping with that goal, Upper Uwchlan Township is pleased to announce a new Financial Dashboard now available on our website, www.upperuwchlan-pa.gov. The Dashboard offers residents and interested members of the public an opportunity to view real-time financial data detailing revenues and expenditures for all Township funds. Audited numbers for 2014 through 2016 are included, as well as live data for fiscal year 2017. Data is visualized in a variety of charts and graphs, displaying trends and changes over time.

In addition to the financial data, the Dashboard includes annual statistics from various Township departments, such as the total number of building permits issued, miles of road repaired by the Public Works department, and citations issued by the Police Department.

The unveiling of the Dashboard comes on the heels of another open government effort by the Township. In April of 2017, staff began publishing Board of Supervisors' meeting packets, in addition to meeting agendas, on the Township website.

“The Financial Dashboard will provide a greater level of transparency into the Township’s financials,” said Board of Supervisors Chairman Kevin Kerr. He added, “When financial statements are available online, residents have convenient, up-to-date assurance that their tax dollars are being used judiciously.”
