Attendees:

Sandy D'Amico, Chair

Jenn Baxter, Vice-Chair

Andy Durkin, Member

Kristin Camp, Esq., Township Solicitor

Tony Scheivert, Township Manager

Gwen Jonik, Township Secretary

Rhys Lloyd, Director of Code Enforcement

Anthony Campbell, Zoning Officer

Dave Leh, Township Engineer

Tom Jones, Police Chief

The Workshop was held at the Township Building, 140 Pottstown Pike, Chester Springs PA 19425.

Sandy D'Amico called the Workshop to order at 4:00 p.m., led the Pledge of Allegiance and offered a moment of silence. No one planned to record the Workshop. There were 3 citizens in attendance.

241 and 245 Park Road Sketch Plan Introduction

Allan Zimmerman, Commonwealth Engineers, introduced a sketch plan proposing a 2-story, 6,000 SF daycare center (6-weeks through Pre-K) at 241-245 Park Road, in the C1 Village Commercial District. They will need conditional use approval and they'll need some modification to the number of parking spaces - they're proposing 39 spaces, similar to other "Ducklings" parking (32-35 spaces). Kristin Camp, Esq., said they will need to provide data to support the lower number of spaces. They do not believe there will be traffic issues with the timing of Windsor Academy across Park Road. Mr. Zimmerman said they'll submit a conditional use application. Tony Scheivert advised them to be conscience of the village architecture.

138 Moore Road Introduction of Proposed Art Studio Use

Justin Smith, 138 Moore Road property owner, purchased the property in 2016 and had been operating a business in the barn. He would now like to rent the barn to folks in the Arts. An Art Instructor, a retired schoolteacher, who currently has classes offered to all age ranges would like to operate her studio in the barn. They're inquiring what's necessary to do that and be in compliance with zoning regulations. The busiest day is Saturday, though she does some workshops for teens some afternoons. The current maximum allowed at Moore Road is 4 students – she'd like to be able to have 10 students in a class. Saturdays 10-12 adult classes; 12:30-1:30 pre-school; 2:00-4:00 elementary aged; pottery 5-7 adults. Anthony Campbell, Zoning Officer, advises the Ivystone development plan states a home occupation in the barn could be okay and an art studio up to 4 students with 1 assistant. This could be an adaptive reuse of an historic structure through conditional use approval. The property includes a converted bank barn, utilized as a gallery setting and studio; a barn apartment, where Mr. Smith lives; a cottage dwelling; the principal stone farmhouse is separate and addressed separately. There are 9 parking spaces – rustic, not lined. Most students get dropped off. The next step, per Anthony, is to submit a conditional use application.

Discussion ~ Modification of the 75' wetland buffer setback requirement

Kristin Camp, Esq., led discussion of the Supervisors potentially modifying the wetland buffer setback. There had been an optional requirement in the 2014 Storm Water Management ordinance, and we tried to match our riparian buffer setback that was already in the ordinance. Dave Leh suggests reducing the wetland buffer setback to 25', to be consistent with the regulations in our

Subdivision/Land Development and Zoning Ordinances. The Storm Water Management Ordinance could be revised to 25' setback from wetlands and 75' from top-of-banks for streams and water bodies. That would bring consistency to the various Sections of our Codes. We don't have to revise it, though, as the goal is protection of the wetlands. If we want to keep it more restrictive, developers will ask for a waiver. Once the particular situation is explained, the Board can determine whether to grant the waiver request. As an aside, wetlands aren't always wet all the time. Some Supervisors favored being consistent; others favored hearing individual situations as they arose. The conclusion was to table the topic for the time being.

Commercial zoning district uses

The Board tabled this discussion to a future meeting.

Draft Alternative Energy Ordinance Amendments

Kristin Camp reviewed the ordinance amendment with the Board but didn't have the draft of the changes. The draft will be circulated and considered later in the year.

Open Session

Tony Scheivert commented on an accident at Ivystone Drive and Moore Road and commended the Public Works Department as one of our crew drove the ambulance.

Gerry Stein, Greenridge Road resident, requested an update of potentially outlining the foundation of the Dorlan Mill miller's house as part of the Struble Trail extension project. Tony Scheivert advised he has contacted DCNR but they haven't yet connected.

Adjournment

There being no further business to be brought before the Board, Sandy D'Amico adjourned the Workshop at 4:50 p.m.

Respectfully submitted,

Gwen A. Jonik

MEMORANDUM

TO: BOARD OF SUPERVISORS

FROM: Jill Bukata, Township Treasurer

RE: Status Update

DATE: July 17, 2023

Finance has worked on the following items during the month

- Received and processed 70 trash and 316 sewer payments (6/16/2023 – 7/11/2023)

Highlights of the June 30, 2023 financial statements

- The balance sheet remains strong with cash of over **\$13.6 million** - of that amount **approximately \$5.9 million** is not available for the routine operations of the Township as it is reserved for specific purposes, ie. Liquid Fuels and Act 209 for highways, Turf Field for replacement of the Turf Field, Capital Projects for capital improvements etc.
- Combined revenue and expense status (General Fund & Solid Waste Fund):

○ Percentage through the year	50.0%	
○ YTD revenues	\$ 5,991,283	63.8%
○ YTD expenses	\$ 4,188,799	49.1%
○ YTD net income	\$ 1,689,616	(before transfers)
○ YTD transfers out	\$ -	
○ YTD net income (after transfers)	\$ -	
○ Budgeted 2023 net income	\$ 853,596	(before transfers)
○ Budgeted 2023 net income (after)	\$ 18,596	(after transfers)
- YTD EIT revenues as of June 30 were \$77,000 lower than at the same time last year, although receipts through June 30 are 59.3% of budget.
- The transfer of \$112,687.96 from the General Fund to the Capital Fund is not part of the budgeted fund transfers. It is comprised of ARPA Funds that the Township is using for several projects that will be paid from the Capital Fund.

Building Valuation Data – FEBRUARY 2023

The International Code Council is pleased to provide the following Building Valuation Data (BVD) for its members. The BVD will be updated at six-month intervals, with the next update in August 2023. ICC strongly recommends that all jurisdictions and other interested parties actively evaluate and assess the impact of this BVD table before utilizing it in their current code enforcement related activities.

The BVD table provides the “average” construction costs per square foot, which can be used in determining permit fees for a jurisdiction. Permit fee schedules are addressed in Section 109.2 of the 2021 *International Building Code* (IBC) whereas Section 109.3 addresses building permit valuations. The permit fees can be established by using the BVD table and a Permit Fee Multiplier, which is based on the total construction value within the jurisdiction for the past year. The Square Foot Construction Cost table presents factors that reflect relative value of one construction classification/occupancy group to another so that more expensive construction is assessed greater permit fees than less expensive construction.

ICC has developed this data to aid jurisdictions in determining permit fees. It is important to note that while this BVD table does determine an estimated value of a building (i.e., Gross Area x Square Foot Construction Cost), this data is only intended to assist jurisdictions in determining their permit fees. This data table is not intended to be used as an estimating guide because the data only reflects average costs and is not representative of specific construction.

This degree of precision is sufficient for the intended purpose, which is to help establish permit fees so as to fund code compliance activities. This BVD table provides jurisdictions with a simplified way to determine the estimated value of a building that does not rely on the permit applicant to determine the cost of construction. Therefore, the bidding process for a particular job and other associated factors do not affect the value of a building for determining the permit fee. Whether a specific project is bid at a cost above or below the computed value of construction does not affect the permit fee because the cost of related code enforcement activities is not directly affected by the bid process and results.

Building Valuation

The following building valuation data represents average valuations for most buildings. In conjunction with IBC Section 109.3, this data is offered as an aid for the building official to determine if the permit valuation is underestimated. Again it should be noted that, when using this data, these are “average” costs based on typical construction methods for each occupancy group and type of construction. The average costs

include foundation work, structural and nonstructural building components, electrical, plumbing, mechanical and interior finish material. The data is a national average and does not take into account any regional cost differences. As such, the use of Regional Cost Modifiers is subject to the authority having jurisdiction.

Permit Fee Multiplier

Determine the Permit Fee Multiplier:

1. Based on historical records, determine the total annual construction value which has occurred within the jurisdiction for the past year.
2. Determine the percentage (%) of the building department budget expected to be provided by building permit revenue.
- 3.

$$\text{Permit Fee Multiplier} = \frac{\text{Bldg. Dept. Budget} \times (\%)}{\text{Total Annual Construction Value}}$$

Example

The building department operates on a \$300,000 budget, and it expects to cover 75 percent of that from building permit fees. The total annual construction value which occurred within the jurisdiction in the previous year is \$30,000,000.

$$\text{Permit Fee Multiplier} = \frac{\$300,000 \times 75\%}{\$30,000,000} = 0.0075$$

Permit Fee

The permit fee is determined using the building gross area, the Square Foot Construction Cost and the Permit Fee Multiplier.

$$\text{Permit Fee} = \text{Gross Area} \times \text{Square Foot Construction Cost} \times \text{Permit Fee Multiplier}$$

Example

Type of Construction: IIB

Area: 1st story = 8,000 sq. ft.
2nd story = 8,000 sq. ft.

Height: 2 stories

Permit Fee Multiplier = 0.0075

Use Group: B

1. Gross area:
Business = 2 stories x 8,000 sq. ft. = 16,000 sq. ft.
2. Square Foot Construction Cost:
B/IIB = \$233.85/sq. ft.
3. Permit Fee:
Business = 16,000 sq. ft. x \$233.85/sq. ft x 0.0075
= \$28,062

Exhibit A page 2

Important Points

- The BVD is not intended to apply to alterations or repairs to existing buildings. Because the scope of alterations or repairs to an existing building varies so greatly, the Square Foot Construction Costs table does not reflect accurate values for that purpose. However, the Square Foot Construction Costs table can be used to determine the cost of an addition that is basically a stand-alone building which happens to be attached to an existing building. In the case of such additions, the only alterations to the existing building would involve the attachment of the addition to the existing building and the openings between the addition and the existing building.

- For purposes of establishing the Permit Fee Multiplier, the estimated total annual construction value for a given time period (1 year) is the sum of each building's value (Gross Area x Square Foot Construction Cost) for that time period (e.g., 1 year).
- The Square Foot Construction Cost does not include the price of the land on which the building is built. The Square Foot Construction Cost takes into account everything from foundation work to the roof structure and coverings but does not include the price of the land. The cost of the land does not affect the cost of related code enforcement activities and is not included in the Square Foot Construction Cost.
